October

2024

He that findeth his life shall lose it; and he that loseth his life for my sake shall find it." Matthew 10:39 ASV

higher places before the flood hit but several of our electrical appliances were damaged in the flood. In any case, we thank God that the water receded

The flood in Chiang Mai

Two weeks ago, the province we live in, Chiang Mai, which is located in the northern part of Thailand, experienced severe and heavy rainfall for a prolonged period of time, causing massive flooding in the city that has never been recorded before. The house where we normally live has never flooded before, but this time due to the amount of rain we received the river overflowed its banks causing flood waters to reached our house and flooded our street and the the first floor of our house. We thank God however, that we were able to move most of our things to

Flood water inside of our house

relatively quickly and we were able to clean up the mud left behind by the flood water quickly. This was not so much the case for many other households in the city of Chiang Mai, the flood has caused much damage to their homes and to their livelihoods because their businesses and goods they owned were damaged by the flood. Please remember to keep our city and the flood victims in your prayers that they will recover and that the city will get back to normal as soon as possible.

for your prayers and help with raising the budget to repair the irrigation canal.

The Orphanage

The children at the orphanage

We praise God that all the children in the orphanage are doing well, with nothing more than a slight cold. Last week the children just finished their first semester exams. The school is currently on a school break for 1 month. Their schools will resume again on November 1, 2024. This year, due to the heavy rains as stated, the rice fields around the orphanage was hit by flash floods.

the orphanage's damaged rice field

The orphanage's rice field that we planted rice for next year was badly damaged, including the irrigation canals in many places. We thank God and thank everyone

Collapsed irrigation canal

We have temporarily repaired the irrigation canal as a necessity because at this time the rice plants are producing ears and the rice plants are badly in need of water during this stage of their growth.

Repairs of the irrigation canal

We plan to make permanent repairs and pour cement this coming summer. Please pray for this project that we will be able

to raise the necessary funds to permanently repair the irrigation canal.

News from the churches

The 9 churches that we are ministering are all doing well. There is however, one village where we are preaching the Gospel where we have four families of converts. One of the family's wives has been suffering from heart disease. By the grace of God, she has been able to live for many years after she found out that she has heart disease but sadly last night she suddenly passed away. Please keep this family of new believers in your prayers that now there is the husband and their sons and daughters. Please pray that they will find comfort in God's promise and that they will continue to grow in their faith in Christ.

keep this village in your prayers that there will be enough funding to build a church here for the believers. As for the labor cost of this project, the other churches that we minister in will help raise funds for the labor cost of building this church.

Land for building the Church

We thank each and every one of you for your continued faithful support and prayers for our family and The Lord's work in Thailand.

Worship in the evangelist's home

We now have a new church added to our group of churches that we are currently ministering in. The name of this village is Ja Pa village. Currently we have 20 people whom we've evangelized to in this village. This village does not yet have a church to worship in so we are now currently using the Evangelist's home as a place of worship. We do have a plot of land to build a church building on, but we lack the budget of \$5,250 to build a church building for this village. We ask that you
